

HIPAA Policy Notices of Privacy Practices

Our clinic is concerned about the safeguarding of your health care information. As your health care provider, our staff is committed to protecting and maintaining confidentiality regarding your protected health care information.

A record is made each time you are treated at our clinic. Your injuries, evaluation and test results, diagnosis, treatment and a plan of care are recorded. This information is most often referred to as your "patient medical record," and serves as a basis for planning your care and treatment. It also serves as a means of communication among any and all other health professionals who may contribute to your care. Understanding what information is retained in your record and how that information may be used will help you to ensure its accuracy and enable you to relate to who, what, when, where, and why others may be allowed access to your health information. This effort is being made to assist you in making informed decisions before authorizing the disclosure of your medical information to others.

Your health information rights include your request to restrict certain uses and disclosures of your information, and to request amendments be made to your medical record. Our clinic is not required to accept your requests and you cannot request restrictions on uses or disclosures otherwise required by law. Your rights include being able to review or obtain a paper copy of your health information, and be given an account of all disclosures. You may also request communication of your health information be made by alternative means or to alternative locations in a confidential manner. Our clinic is required by law to accommodate reasonable requests to receive communication of health information by alternative means or to alternative locations if you clearly state that disclosures of all or part of the information could endanger you. Our clinic may require you to submit a written request for any of the documents or actions that you have a right to under the Health Insurance Portability and Accountability Act (HIPAA) of 1996.

Our clinic is required by law to maintain the privacy of your health information and to provide you with notice of our legal commitment and privacy practices with respect to the information we collect and maintain about you. This clinic is required to abide by the terms of this notice, as currently in effect, and to notify you if we are unable to grant your requested restrictions or reasonable desires to communicate your health information by alternative means or to alternative locations. This clinic reserves the right to change its practices and effect the new provisions with respect to all health information that it maintains (including such information that this clinic had prior to implementation of the new provision). In the event that changes are made, this clinic will notify you at the current address provided in your medical file. Other than for reasons described in this notice, this clinic agrees not to use or disclose your health information without your authorization.

Under HIPAA our clinic may use and disclose your health information in order to provide "Treatment", obtain "Payment" and perform our "Health Care Operations", as well as other specific reasons which are listed in the "Notice of Privacy Practices" posted in our clinic and provided to you upon intake which explains our policy in more detail.
